The Mountain Association for Community Economic Development (MACED) works to create economic opportunities for low-income people and natural places. MACED believes that green jobs offer great promise, particularly in the new energy sector. Our new energy work is focused on energy efficiency and renewable energy. Working with partners such as Appalachia-Science in the Public Interest and Kentucky Solar Partnership, we develop the infrastructure for helping residences and businesses lower both their utility bills and their carbon footprints through reduced energy use and renewable energy. Training events prepare contractors for designing, installing and operating clean energy and energy efficiency measures.

MACED is offering financial support to cover expenses for people living in the 54 Appalachian counties of Kentucky who wish to participate in the Sustainable Energy Training Series in order to start a business or expand an existing business. Reimbursement rates range from 25% to 100% and include the class fee, mileage, a food allowance and lodging. Please see the map and list of counties on the back of this sheet to determine if you qualify for assistance. Those approved for financial support may use them for as many of the workshops in ASPI's Sustainable Energy Training Series as they wish to attend.

To receive financial support, mark a checkbox in the table below for your family size and 2009 annual income. **Return this form** to Danny Isaacs at MACED via email at disaacs@maced.org, via fax at 859-986-1299 or via mail at 433 Chestnut St, Berea, KY 40403. You will be notified about the amount of reimbursement for which you qualify.

After being notified, submit your Workshop Registration Form, along with payment of the balance you owe to ASPI. For example, if you are approved for financial support covering 75%, send in payment for 25% of the Total Registration Fee. If you have questions, contact Danny Isaacs at 859-986-2373.
